DG'S WALKABOUT IN ILPKL

NEW INNOVATION
SHOWCASE

THE DIRECTOR'S WORDS...

Happy New Year to all of you and hope you have celebrated the start of 2017 in good spirits with family and friends. Now that we're a few days into the New Year, it's good to look ahead and think about what this year may bring us. But first, a quick glance of 2016 was quite a year for all of us at ILPKL. We've been through many developments, in sometimes less than favorable circumstances. It's important

for us to use our time wisely and move forward as decisively and swiftly as we can in 2017. That will only be possible with a positive attitude and a creative thinking continued with dedication and teamwork. So I encourage all of us to evaluate not only the outcome, but also the able to leapfrog that will be faced in ILPKL. The game changer for 2017 will be focusing on certain aspects which will lead ILPKL's future to a better place. Most of the diversion is going to be on the part time courses, training cum production, recognition prior learning, upskilling and upgrading workers. On the other hand there will be quick win approach on the full time program by adopting on the National Dual Training Scheme. The past few years have had a significant impact on all of us, but I would like to thank you all for your support and commitment during these challenging times. The year ahead will bring its own challenges but I'm sure by working together, keeping focused on our priorities and putting our customers first we can realize our ambitions. These will certainly continue to be my priorities and I am convinced I can count on you to do the same.

Sport News

Malaysian football star Mohd Faiz Subri has taken home Fifa's prestigious Puskas Award for the best goal of 2016, a first for the country. The 29-year-old from Penang secured nearly 60% of the popular vote for his free-kick in the Malaysian Super League against Pahang state in February. He was presented with the trophy by Brazilian football legend Ronaldo.
